Roberto **Verdecchia**

PH.D. CANDIDATE IN SOFTWARE ENGINEERING

✉ roberto.verdecchia@gssi.it | 🏠 robertoverdecchia.github.io | 🐱 robertoverdecchia

Summary

Double Ph.D. Candidate of the Computer Science Department at the Gran Sasso Science Institute (GSSI) and of the Software and Services group at the Vrije Universiteit Amsterdam (VU). Member of the Netherlands Research School for Information and Kwnoledge Systems (SIKS). Fascinated by empirical software engineering, especially when applied in the fields of software architecture, technical debt, software testing, and software energy efficiency.

Education

Gran Sasso Science Institute(GSSI) & Vrije Universiteit Amsterdam (VU) *L'Aquila, Italy Amsterdam, The Netherlands*
DOUBLE PH.D. CANDIDATE IN SOFTWARE ENGINEERING *Nov. 2016 - Present*
- Tentative dissertation title: "Identification and Management of Architectural Technical Debt"

Vrije Universiteit Amsterdam (VU) *Amsterdam, The Netherlands*
M.SC. IN COMPUTER SCIENCE: SOFTWARE ENGINEERING CURRICULUM *2014 - 2016*
- Thesis title: "Static and Dynamic Analysis of Software Energy Efficiency in Industry" (*Cum Laude* distinction)

University of Florence - School of Engineering (UniFi) *Florence, Italy*
B.ENG. IN COMPUTER ENGINEERING *2011 - 2014*
- Thesis title: "Algorithm for Weather-based Naval Routing as an N-stage Decisional Process"

Work Experience

Vrije Universiteit Amsterdam *Amsterdam, The Netherlands*
TEACHING ASSISTANT *2015 - Present*
- Courses: Software Testing, Software Architecture, Service Oriented Design, Software Modeling, Service Science
- Responsibilities: Supervise B.Sc/M.Sc Theses, and research projects. Conduct lectures, seminars and exercise sessions. Tutor teams of students. Review exams and deliverables. Manage e-learning platforms. Attend weekly meetings with instructors to align course content.

KPMG *Amsterdam, The Netherlands*
GRADUATE RESEARCH INTERN *Apr. 2016 - Oct. 2016*
- Graduate research intern focusing on the analysis of software products
- Responsibilities: Architecture reconstruction. Static and dynamic analysis of code bases. Server management. Performance testing. Automation scripting. Statistical data analysis

OMALA *Amsterdam, The Netherlands*
SOFTWARE ENGINEERING INTERN *Jun. 2015 - Aug. 2015*
- Software engineering intern focusing on the analysis of a large scale heterogeneous system of systems
- Responsibilities: Requirements engineering and architecture trade-off analysis for the Airport Garden City IT infrastructure project of the Lelystad Airport business park

Honors & Awards

2019	**ACM-SIGSOFT Distinguished Paper Award** , IEEE-ACM International Conference on Software Engineering (ICSE) Paper: *Scalable Approaches for Test Suite Reduction*	*Montreal, Canada*
2019	**Best Paper Award**, Hawaii International Conference on System Sciences (HICSS) Paper: *DecidArch: Playing Cards as Software Architects*	*Hawaii, U.S.A*
2019	**ISSIP-IBM-CBA Student Paper Award for Best Industry Studies Paper**, Hawaii International Conference on System Sciences (HICSS) Paper: *DecidArch: Playing Cards as Software Architects*	*Hawaii, U.S.A*
2018	**Best Early Career Researcher Award**, IEEE International Conference on Software Architecture (ICSA)	*Seattle, U.S.A*
2018	**Runner-up Best Paper Award**, International Conference on ICT for Sustainability (ICT4S) Paper: *Empirical Evaluation of the Energy Impact of Refactoring Code Smells*	*Toronto, Canada*
2018	**Bronze medal - ACM Student Research Competition**, IEEE/ACM International Conference on Mobile Software Engineering and System (MobileSoft 2018) Paper: *Identifying Architectural Technical Debt in Android Applications through Compliance Checking*	*Gothenburg, Sweden*

Visiting

SEDC Lab, ISTI-CNR (Italian National Research Council) *Pisa, Italy*

Visiting research scholar *July 2019*

- Topic: Fast static approaches for test flakiness prediction
- Host: Antonia Bertolino

Electrical and Computer Engineering Department (University of British Columbia) *Vancouver, Canada*

Visiting research scholar *April 2019 - June 2019*

- Topic: Grounded theory on architectural technical debt
- Host: Philippe Kruchten

SEDC Lab, ISTI-CNR (Italian National Research Council) *Pisa, Italy*

Visiting research scholar *July 2018*

- Topic: *Scalable Approaches for Test Suite Reduction*
- Host: Antonia Bertolino

SEDC Lab, ISTI-CNR (Italian National Research Council) *Pisa, Italy*

Visiting research scholar *July 2017*

- Topic: *FAST Approaches to Scalable Similarity-based Test Case Prioritization*
- Host: Antonia Bertolino

Services

Program Committee member	SOFTENG (2020), GREEN (2019)
External Journal Reviewer	IST (2019)
External Conference Reviewer	ICSE (2018, 2019), ICSA (2018, 2019), ECSA (2018, 2019), MOBILESoft (2018, 2019), ESEC/FSE (2018), ICT4S (2018, 2019)
Student Volunteer	ICSE (2018, 2019), ICPE (2018)
